1. Scope and Terms of Reference

This document outlines the scope of work and terms of reference for the appointment of an **independent service provider** to conduct an impact evaluation of community road shows for the Government Pensions Administration Agency (GPAA). The study will be conducted in all the provinces of South Africa where road shows have been conducted. In each region, members will be interviewed face-to-face and the target population will be members who attended the road show, as well as those who did not attend the road show.

2. Purpose

The main purpose of undertaking this project is to establish whether the community road show initiative is effective. This will assist in decisions about scaling up, modifying, or eliminating the initiative. It will also provide policy-relevant information for the redesign and the design of future programs. The undertaking seeks to understand why and how the community road-show initiative works, and not just if it does. Lastly, it serves as an accountability measure.

2.1 Objectives

- To assess the level of achievement of the project against its expected results;
- To assess the design, planning, implementation and management of the initiative for GPAA and its stakeholders ;
- To identify and assess key internal and external factors (positive and negative) that contribute to, affected or impede the achievements;

- To assess how the project has impacted upon the outreach and education of the targeted and affected population members, and contributed to the understanding of GPAA services,
- To assess how the initiative has addressed clients' needs and contributed to the reduction of clients' specific enquiries.
- To draw key lessons and areas of improvement from the project to help inform GPAA's formulation and design of future projects for the benefit of our clients.

Primary users of the evaluation findings are GPAA, GEPF management, staff, and other stakeholders directly involved in the implementation of the initiative..

2.2 Focus Area

The community road show initiative commenced in 2009, and has been in operation for exactly five years.. An external informative evaluation is therefore planned to take place after the five year period. As this is an informative evaluation study, its objective is to assess the extent to which the project has delivered.. The impact evaluation report will thus provide the initiative's performance related information to the GPAA management and other relevant GPAA units. This is in line with the following strategic goal: "Improve service delivery to meet administrative obligations with speed, ease and accuracy".

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to

acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION
