4. GUIDE TO RESPOND

All bids will be evaluated in terms of the attached evaluation criteria. The PPR2011 will apply and the 90/10 evaluation criteria, specifically, will be used. The evaluation has three (3) phases:

- Phase 1 – Administrative Requirement;
- Phase 2 – Functionality / Technical Requirement;
- Phase 3 – Price and Reference.

Bidders will only be considered for the evaluation of phase 2 after meeting the requirements for phase 2 and will be then only be considered for phase 3 after meeting the minimum qualifying threshold of 60% in phase 2.

Functionally / Technical Evaluation

Bidders should take note of the different elements within the evaluation of the technical phase, which are:

- Capability;
- Footprint Service Offering.

Capability

A minimum of three years experience in the relevant industry is a requirement. Additional years will result in a higher score.

Previous and Current client reference letters, which include the value of the projects, are required.

The number of reference letters will be a determining factor when allocating scores here. Similarly the value of the projects will be considered. Reference to similar projects to the value of R1million and above and the number of years exceeding 3 years may be to your advantage.

Footprint

Supplier arrangements:

Written SLA with outsource parties for warehousing and logistical support with confirmation letters from all parties. Asset list of service provider that addresses warehousing and logistical demands of the contract with independent audit of warehouse size and capability and machinery.(proof that logistical partner has the capacity should be provided)

Order placement methodology/approach:

Provide narrative description of quotation process supported by a diagram flow, escalation matrix process flow with software support for orders with tracking system based on SLA and the process flow.

Bidder should use the weightings as a guide to respond.
