TERMS OF REFERENCE

1. OBJECTIVE

The GPAA intends to appoint an experienced service provider through a quality based selection approach (QBS) to evaluate its functions, operations and performance in relation to its mandate and institutional form as executed in the last last five years.

2. BACKGROUND OF THE GPAA

The Government Employees Pension Fund (GEPF) was formed in 1996 through the amalgamation of various previous pension funds, as defined. A decision was taken to separate the fudiciary function of the GEPF from the administration function which led to the formation of the Government Pensions Administration Agency (GPAA) being the administrator in 2010.

The GPAA was established as a government component in terms of the Public Service Act, 1994, and its Executive Authority is the Minister of Finance. Government Gazette number 33051, 26 March 2010, provides the mandates for the GPAA to administer the GEPF and related non-contributory Funds of the National Treasury (NT). The financial management of the GPAA is regulated by the Public Finance Management Act no. 29 of 1999 and its human resource arrangements through the Public Service Act of 1994.

In terms of the Government Gazette establishing the GPAA, the GPAA entered into Administration and Service Level Agreements with its respective clients being the NT and the GEPF. The current funding model is a year on year budget submitted to both the GEPF and NT for approval. Further governance, financial and human resource arrangements are dictated in the said Government Gazette.

3. CURRENT SITUATION

The GPAA administers the pension affairs of approximately 1, 85 million government employees, pensioners, and beneficiaries. It has a national footprint of 16 regional offices, 5 co-location sites and a Head Office at Pretoria. Increased service demands and the need to improve service delivery led to the GPAA embarking on a modernisation programme around 2012. The modernisation programme is still ongoing. The ever changing environment the GPAA operates within and the demand for increased and more efficient service delivery brings about challenges within the administration function, including but not limited to budget, human resources, process and regulatory confines.

Treasury Regulations requires the accounting officer, the CEO in the case of the GPAA, to prepare a strategic plan and the Annual Performance Plan (APP) that form the basis for the annual report and establish procedures for quarterly reporting to facilitate effective performance monitoring, evaluation and corrective actions where necessary.

The GPAA is currently entering the implementation of the 3rd year of its Strategic Plan of 2019-2023 and has just delivered the Annual Report for the 2020/21 financial year after successful audit of the Auditor General of South (AGSA).

The GPAA is required to review its functions and performance as a government component and administrator every five years in order to ascertain its efficacy, fit for purpose and performance in relation to its mandate. This includes, but is not limited to, functional performance, human resource management and arrangements, financial model, organisational structure, institutional form and the like.

Thus, the GPAA is now embarking on its second 5 year evaluation. The second 5 Year Evaluation since formation of the GPAA is intended to, *inter alia*, o determine strategies that had a positive impact on the achievement of the strategic goals as well as challenges encountered that requires attention in the future.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.
